DEPARTMENT OF ARCHIVES

GOVERNMENT OF MAHARASHTRA, MUMBAI.

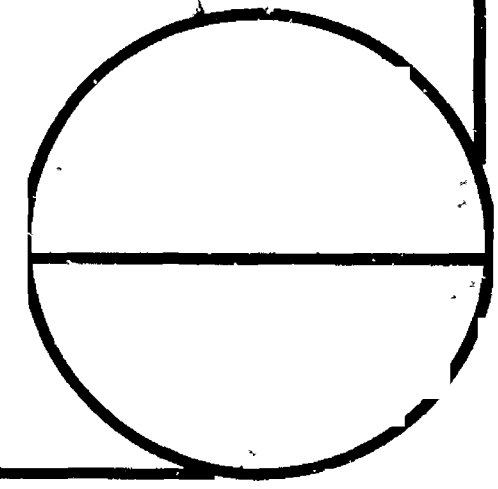
NAME OF RECORD : REVENUE DEPARTMENT VOL

NO : 13 – 1050

YEAR : 1880

EXPOSED BY : ANIL SAWANT

DATE : 15|10|2007



induce them to take much trouble in the matter, in fact ... from a past experience of the necessity for having resident Magistrate to prevent nuisances I would be glad if Government could invest the Sub-Judge of Haveree with the powers of a Second Class Magistrate as I am convinced it would have a good effect in improving the sanitary condition of the town as well as in keeping in order the quarrelsome and riotous inhabitants of that town.

Para 31. It appears that proper measures are now being taken to test the birth and death registers and that due notice has been taken of mistakes by Jamadars the village officers where the registers had not been kept properly.

Para

Para 32. It is satisfactory to learn from the District Deputy Collectors remarks on the mortality from fever that in the year under report it has decreased since last year. It still appears to be excessive high especially in the Godhra and Rane Bennur talukas. It is likely that the establishment of the Chanlana dispensary at Haveri will have a good effect in still further diminishing it but as I have already expressed an opinion in another report lately these deaths from fever are reported by the village officers who frequently attribute deaths from other causes to fever simply from Quinine has been supplied to all the Jamkhedar's offices for sale but its efficacy

induce them to take much trouble
in the matter, in fact ~~.~~
from a fair experience, of the
necessity for having resident Magistrate
to prevent nuisances I would be
glad of Government could unite
the Sub-judge of Navsari with the
powers of a second class Magistrate
as I am convinced it would have
a good effect in improving the
sanitary condition of the town as well
as in keeping under the quarrelsome
and riotous inhabitants of that
town.

Para 31. It appears that
proper measures are now being
taken to test the birth and death
registers and that due notice has
been taken of mistakes by Jamadars
the village officers where the
registers had not been kept properly

Para

Para 32. It is satisfactory to learn from the District Deputy Collector's remarks on the mortality from fever that in the year under report it has decreased since last year. It still appears to be excessively high especially in the Godi and Kaue Bunnus talukas. It is likely that the establishment of the Chanlai dispensary at Haveri will have a good effect in still further diminishing it but as I have already expressed an opinion in another report lately these deaths from fever are reported by the village officers who frequently attribute deaths from other causes to fever simply from [illegible] Quinine has been supplied to all the Jamedars offices for sale but its efficacy

induce them to take much trouble in the matter, in fact I ~~~ from the past experience of the necessity for having resident Magistrates to prevent nuisances I would be glad if Government could invest the Sub-Judge of Navsari with the powers of a Second Class Magistrate as I am convinced it would have a good effect in improving the Sanitary condition of the town as well as in keeping in order the quarrelsome and riotous inhabitants of that town.

Para 31. It appears that proper measures are now being taken to test the birth and death registers and that due notice has been taken of mistakes by Jamadars the village officers where the registers had not been kept proper

Para

Para 32. It is satisfactory to learn from the District Deputy Collectors remarks on the mortality from fever that in the year under report it has decreased since last year. It still appears to be excessively high especially in the Kod and Rann Bunnee talukas. It is likely that the establishment of the Chartado dispensary at Haveri will have a good effect in still further diminishing it but as I have already expressed an opinion in another report lately these deaths from fever are reported by the village officers who frequently attribute deaths from other causes to fever simply from [illegible] Quinine has been supplied to all the Jamledars Offices for sale but its efficacy

is not so great as it should be owing to ignorance of how it ought to be administered. This might be prevented and real good effected if besides the genuine powders a small packet of fever medicine such as aperients and diaphoretics were allowed to be sold in the Jamadars officers together with a short memorandum in the vernacular of the district describing the proper method of treating patients in each stage of fever, people would then be able to treat themselves in villages far distant from the charitable dispensary.

Para 33. Education is progressing but it is evident from a comparison of the table of population in para 31 with the numbers of scholars in this para that much

still remains to be done. The majority of the people are agriculturists who employ their sons in the fields or to herd cattle so that it is often difficult to induce sufficient number of parents to send their sons to school and the attendance is always liable to become irregular at harvest or such other times as require every hand which can be obtained to be employed in the fields.

Para 34. The progress made in the watan enquiries in the District Deputy Collectors & Pahikas can be better judged from the following table showing the number of watans to be enquired into at the beginning of the year under report, the number of watan cases in which enquiries were

is not so great as it should be owing to ignorance of how it ought to be administered. This might be prevented and real good effected if besides the genuine powders & small packets of fever medicine such as aperients and diaphoretics were allowed to be sold in the Mamledars offices together with a short memorandum in the vernacular of the district describing the proper method of treating patients in each stage of fever, people would then be able to treat themselves in villages far distant from the charitable dispensary.

Para 33. Education &c., progressing but there is evident from a comparison of the table of population in para 31 with the number of schools in this para that much still

still remains to be done. The males of the people are agriculturists who employ their sons in the fields or to herd cattle so that it is often difficult to induce sufficient number of parents to send their sons to school and the attendance is always liable to become irregular at harvest or such other times as require every hand which can be obtained to be employed in the fields.

Para 34 The progress made in the watan inquiries in the Districts Deputy Collectors & Talukas can be better judged of from the following table showing the number of watans to be enquired into at the beginning of the year under report the number of watans dealt in which enquiries

1879.

is not so great as it should be owing to ignorance of how it ought to be administered. This might be prevented and real good effected if besides the quinine powders & small packets of fever medicine such as aperients and diaphoretics were allowed to be sold in the Inamledars offices together with a short memorandum in the vernacular of the district describing the proper method of treating patients in each stage of fever, people would then be able to treat themselves in villages far distant from the charitable dispensary.

Para 33. Education is progressing but it is evident from a comparison of the table of population in para 31 with the numbers of schools in this para that much

still

still remains to be done. The males of the people are agriculturists who employ their sons in the fields or to herd cattle so that it is often difficult to induce sufficient number of parents to send their sons to school and the attendance is always liable to become irregular at harvest or such other times as require every hand which can be obtained to be employed in the fields.

Para 34. The progress made in the watan inquiries in the District Deputy Collector's & Talukas can be better judged of from the following table showing the number of watans to be inquired into at the beginning of the year under report, the number of watan cases in which inquiries were

here made and the balance still unenquired into. More should have been done in the Kangal taluka

Talukas	No. of watans to be enquired into at the beginning of the year		No. of watans enquired into		No. of watans to be enquired at the close of the year

Administration Report.

Memo: from the Comr, S.D.: No 1626/27 July 1880:- Forwarding with his remarks, the Administration Report of the Collr of Shimoga for Kistna Fasli & the Statl: of Collection for 79-80 accompanied by the Collectors remarks on each.—

Draft. Secy to Govt
Mills
J. F. Fo.

Dharwar

Here were the changes during the year in the staff of officers at the Collector's disposal. Mr Charles, I.C.S. Asst. Collector, having proceeded on furlough in December last, was succeeded by Mr Keen.

2/ The season was a good one, the rainfall over most above the average in seven of the former twenty years. The Commissioner's remarks are interesting summary of the effect of seasons for previous districts which the district exhibits. The Collector should take immediate measures to create the Irrigation Department - the district irrigation better adapted for the purposes they are intended to fulfil the may appear to require at present. There has been an increase of only more than 1 per cent in the number of the rural population. ~~Under~~ the registration of vital statistics in Dharwar - on which ~~the~~ steps are made - new rules were passed last, has been much improved by care attention. Public health has been good but the growing unhealthy of the ~~in~~ -itable diseases is evinced by increase attendance. The number of out patients having risen from 17,503 1878/79 to 20,077 in the year under review. The Collector should add a column to the table at the head of Statement No. 1 for the whole district. There is a slight increase in the number of vaccinations both of primary

1953 B.

Administration Reports

Memo: from the Comr, S.D. No 1626 of 27 July 1880:- Forwarding with his remarks, the Administration Report of the Collr of Shamsabad for his Accts & the Dist: & Collection Jama 79-80 accompanied by the Collectors remarks on each.—

Draft. here written
to Collr
7. & Co.

Chanmar

ness.

There were no changes during the year in the staff of officers at the Director's disposal. Mr Charles, 1st Asst. Collector, having proceeded on furlough in December last, & being succeeded by Mr Keevil.

2/ The season was a good one, though the rainfall was not above the average. In para 3 of his forwarding memo the Commr gives an interesting summary of the effects of seasons from previous districts which the dist. exhibits. The Collector should take immediate measures to locate the Panchayats Union Board - the districts in circulation better adapted for the purposes they are intended to fulfil than they appear to answer at present. There has been an increase of rather more than 1 per cent in the numbers of the rural population. [illegible] the registration of vital statistics in Chanmar. on which strong animadversions were passed last year has been much improved by careful attention. Public health has been good, but the growing unhealthiness of the charitable dispensaries is caused by the increase attendance. The number of out-patients having risen from 17,536 in 1878/79 to 20,077 in the year under review. The Collector should add a column to the table at his para 5 showing the totals for the whole district here & a similar increase in the number

1953 B.

Administration Reports.

Memo: from the Comr, S.D. No 1624 of 27 July 1880:- Forwarding with his remarks, the Administration Report of the Collr of Shimoga for his Accts & the Distt: & Collection for 1879-80 accompanied by the Collectors remarks thereon.—

Draft here written
for
27 8 80.

Chanmar

1920.

There was no change during the year in the staff of officers at the Director's disposal. Mr Charles, 1st Asst. Collector, having proceeded on furlough in December last, & being succeeded by Mr Keir.

2/ The season was a good one. Though the rainfall was not above the average. In para 3 of his forwarding memo the Commr gives an interesting summary of the effects of season from previous distress which the dist had exhibited. The Collector should take immediate measures to locate the pain. Grain shops Khanapara - the district in circulation better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent in the numbers of the rural population. ~~Contrary to~~ The registration of vital statistics in Chanmar as which ~~Mr~~ stamp administrative steps were passed last year has been much improved by careful attention. Public health has been good, but the fluctuating volume of the circulable circumstances is caused by the increase attendance. The number of outpatients having risen from 17,536 in 1918-19 to 20,077 in the year under review the Collector should add a column to the table at his para 8 showing the no. for the whole district. There is a slight increase in the number

Secondary operations. Agricultural stock has increased under all heads there has been a slight fluctuation in the prices of labour, skilled labour having risen & unskilled labour fallen. Prices of food grains produce have greatly declined, wheat from 4 to 8 Srs per rupee, Jowar from 14 to 20 Srs, and dal from 5 to 12 Srs. Cotton, however, shows a slight rise, off. from 2·3 to 1·9 Srs per rupee. The price of Khan depending upon the rates ruling in the European markets is not directly affected by a large addition in any part the district in which it is grown. Taccavi advances amounting to Rs. 3601 were granted for the purchase of seed. They were rendered necessary by the failures caused by rain, & have been repaid in full. Both the Collector & Commr. comment on the punctual value of them to the ryots in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,573 as against 35000 in the previous year, or more than double. Govt. fully endorse the Collector's proposal, which is supported by the Commr. to affiliate the Jeerum fair to the adjoining municipality of Chowalpund.

3) Except in 2 villages, the delay in which is satisfactorily explained the jamabandi settlement was punctually completed in all Talukas. The settlement of Rs. Bankapur, and Hoode was effected by the Collector in person. Land Revenue for Collection

[illegible] has been from [illegible] to
2,23475 in 1975/76 to Rs. 23,29,278.
Other Revenue from Rs. 1,13,277 to Rs.
13,609 and Local Funds from Rs 1,03,181
to Rs. 1,15,012. The increase of Rs 1,05,809
in Land Revenue is primarily due to
introduction of revised rates of assess-
ment in the Dharwar, Hubli, Karwar,
Haveri & Kod Taluks, which also
accounts for the increase in L. Funds.
Abkari Revenue has increased by
by Rs. 5555, but the Collector reports
that the recent sale of forests for
the ensuing year has resulted in an
increase of Rs. 24,295, which can be
attributed only to the generally improved
condition of the people. Realizations of
revenue show a total collection under
heads of Rs. 26,07,140 out of Rs. 26,24,
due an advance balance of Rs. 2320,
which Rs 2105 are on account of
land revenue was anticipated at the
close of the year. Collections & arrears on
account of previous years have been bet-
ter, amounting to Rs more than Rs.
321, which leaves Rs. 23,8-22 under
outstanding. The Collector is thankful
to note that the Talukdars should be
taken off the accounts as irrecover-
able. A duty cut, however, concerning
with the issue & redemption during
the receipt of details reports
which have been called for by him.
The amount of Income returned for
the Collection of the Revenue was not
real- as compared with the pre-
ceding year. For Rs 570 returns
were issued as against 1052 in
1974-75. distraint was resorted in
by 84 cases as compared with 68

Excise Revenue - Operations. Agricultural stocks has increased under all heads. There has been a slight fluctuation in the prices of labour, Skilled labour having risen & unskilled labour fallen. Prices of food grains & produce have greatly declined. Wheat-bran 4 to 5 Rs per maund. Jowar from 14 to 20 Rs, and dal from 5 to 12 Rs. Cotton, however, shows a slight rise, viz. from 2-3 to 1-5 Rs per maund. The price of Khan depending upon the rates ruling in the European markets is not directly affected by a large arrival in any part of the district in which it is grown. Takavi advances amounting to Rs. 360, were granted for the purchase of seed. They were rendered necessary by the failure caused by rats, & have been repaid in full. Both the Collector & Commr. comment on the seemingly value of them to the ryots in the circumstances under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or more than double. Govt. fully endorse the Collector's proposal, which is supported by the Commr. to affiliate the Jejuri fair to the adjoining municipality of Koregaon.

3) Except in 2 talukas, the delay in which is satisfactorily explained, the patwaribandi settlement was practically completed in the talukas. The settlement of Pen, Karkamb, and Khed was effected by the Director of Land Records for Collectors

Area has risen from Rs. 22,23,475 in 1978/79 to Rs. 23,29,279. Paper Revenue from Rs. 1,13,277 to Rs. 1,19,809 and Local Funds from Rs 1,03,01 to Rs. 1,05,012. The increase of Rs. 1,05,80 in Land Revenue is primarily due to the introduction of revised rates of assessment in the Dharwar, Hubli, Haveri, Gadag & Kod Taluks, which also accounts for the increase in C. Funds. Abkari Revenue has increased by only Rs. 5585; but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,295, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under the heads of Rs. 26,07,120 out of Rs. 26,24,320 while an arrear balance of Rs. 3320 of which Rs 3105 are on account of Land Revenue was outstanding at the close of the year. Collections of arrears on account of previous years have been but small, amounting to no more than Rs. 8321, which leaves Rs. 23,85-22 still outstanding. The Collector is thereby of opinion that the Talukdars should be written off the accounts as irrecoverable, a duty that, however, concerning which the Commissioner's references pending the receipt of detailed reports which have been called for by him. The amount of Income Tax paid for the Collection of the Revenue was not small as compared with the previous year, for which 5570 returns were received as against 1052 in 1878-79 the total was reduced to

secondary operations. Agricultural labour has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen & unskilled labour fallen. Prices of food grains & cotton have greatly declined. Wheat from 4 to 6 Rs per rupee. Jowar from 14 to 20 Rs, and dal from 5 to 12 Rs. Cotton, however, shows a slight rise, diff. from 2-3 to 1-5 Rs per rupee. The price of skin depending upon the sales taking in the European markets is not directly affected by a large outturn in the district in which it is grown. Taken advances amounting to Rs. 3601 were granted for the purchase of seed. They were rendered necessary by the losses caused by rats, & have been repaid in full. As the Collector remarks, comment in the general value of them to the ryots in the emergency under which they were granted there has been a large increase in the numbers of people who attended the various fairs held in the district, Rs 61,575 as against 35000 in the previous year, or more than double. Dist. Judge supports the Collector's proposal, which is supported by the Commr. to affiliate the Jeerapur fair to the adjoining municipality of Nawalgund.

3) Except in 2 villages the delay in which in [illegible] satisfactorily explained the fasalabandi settlement was practically completed in all talukas. The settlement of Rs. Nankapur, and was effected by the Mamlatdar & Land Revenue Collector

Cess has risen from [illegible] to Rs. 22,23,475 in 1870/71 to Rs. 23,29,279. Salt Revenue from Rs. 1,13,277 to Rs. 1,19,634 and Local Funds from Rs 1,03,055 to Rs. 1,05,012. The increase of Rs. 1,05,904 in Land Revenue is principally due to the introduction of revised rates of assessment in the Chaparan, Kaithi, Baupal, Kalkalia & Kod Kalikas, which also accounts for the increase in P. Fund. Abkari Revenue has increased by only Rs. 555-8-, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,295-, which can be attributed only to the generally improved condition of the people. Realizations of Revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,24,3[illegible] while an outstanding balance of Rs. 3320 of which Rs 3105- are on account of Land Revenue was entertained at the close of the year. Objections & arrears on account of previous years have been settled, amounting to no more than Rs. 5321, which leaves Rs 33-12- still outstanding. The Collector is thereby of opinion that the Cattle Fund should be credited. If the accounts are incorrect, a subject, however, concerning which the Commissioner of Revenue is pending the receipt of detailed reports which have been called for by him the amount of Income realized for the Collection of the Revenue was not [illegible] as compared with the preceding year. For which Rs 570 returned [illegible] Rs 1,13,277 as against Rs 1,19,634 in the present year which was not [illegible] as compared with the [illegible]

1878/79. There has been a falling off in the amount realized from Provincial Rates & a slight increase under the head of L.R. Rates. The decrease, which is said to be due to a ~~competition~~ combination among the farmers should be dealt with in one of the modes suggested by the Secretary. Mr Crawford is undoubtedly correct in considering that the rate of Rupee Rate Cent. must be adopted to effect this. Excise receipts show an increase from Rs. 24,580 to Rs. 28,852 while Collectorate has risen from Rs. 20,274 to Rs. 30,017. This duty should be ~~was at~~ fully discussed when Govt. considers the Annual admr. Reports from the Commissioners of Excise. Fees, grants of timber have been heavy in four cases only. Stamp revenue has fallen from Rs. 72,203 to Rs. 66,840 under the head of Court Fees and from Rs. 5-5,422 to Rs. 44,581 under the head of General Stamps. Less litigation and fewer dealings between the Sinkars & Ryots are said to account for this. The Collector has tabulated in his para 26 the results under the different classes of Land Tax Assessment, but as pointed out by the Comm.r has failed to contrast the figures for the year under review with those of the preceding year. It appears that Rs. 1,22,140 were ~~originally~~ imposed as Excise Duty. That there were 1064 appeals resulting in the reduction of the amount to Rs. 1,17,738. and that the sum Rs. 141 was collected. These results are not satisfactory and

service rendered care & attention
on the part of the local officers.
There are 4 Minor Estates under
the Collector's charge most deserving
Lakshmanrao Venkadesh. The senior
Jahagirdar of Kebli, appears to be
much interested, but as the owner is
only 7 years of age it may be hoped
that it will have attained a satis-
factory financial position long before
he has arrived at majority. The result
of the management of the Estate
belonging to Mir Bhaskar Lashkari
Patankar has been most satisfactory
the balance at the credit of the Estate
has been raised from Rs. 4.8.0, the
sum at which it stood in 1870 when
the Estate was attached, to Rs. 14.8.35
while Mir Bhaskar himself has received
an excellent education and has taken
his degree as B.A. at the University
a fair amount of written depositions
has been performed during the year
though there is still room for im-
provement under this head.

4) The Collector has moved actively
about his charge and performed a
large amount of village inspection
& his inspection of boundary lines
is particularly commendable. The
destruction of useless records has been
satisfactory. The revised rates of
Settlement were introduced during
the year into 110 villages of the Taluka

Talukas	Villages	noted in the

Dharwar & Nandi Hills Survey, which has been settled for the time by G.O. No 2055- of 20th April last is noted as a place the area of which Land has been increased by 21,575 acres, of which 13010 acres were alienated by Inamdar rights under G.O. No 3010 of 26th June 1875. The Collector attributes the deficiency in amount of 10218 acres more to the increased rates imposed at the revision of assessment, but apparently without any sufficient grounds, for the Land Revenue is as the Commissioner observes, among the richest & most highly assessed in the Presidency, the subject of cotton cultivation is elsewhere dealt with by him. When the report for the current year is received it should be carefully scrutinized

5/ Three decisions were passed during the year in suits against Government, and in each of them the case was successfully defended. One suit was pending at the close of the year. Two appeals were decided in favour of Government out of the 102 cases, and the work is reported to be fairly done. The number of offences dealt with by Magistrates has decreased from 3027 to 3295 and there has been a corresponding decrease in the number of offenders. 32 police patels were punished by fine of 7 by dismissal. A return ought to have been furnished showing the number of cases tried by village patels, as has been done in the reports from other districts in which any patels have powers under S. 15 Act VIII of 1867. Duties of

the District Jail were, it is satisfactory to find, far fewer than in the hands of the District Magistrates of other 1st Class Magistrates.

6/ One meeting only of the Dist. L.F. Committee was held during the Year. L.F. Receipts were Rs. 1,55,511, or including an opening credit balance of Rs. 50,799, Rs. 2,06,310 in which Expenditure amounted to Rs. 1,55,221, leaving a closing balance of Rs. 51,089. The Commr. adverts to the importance of completing the construction of the road from Padaya to Hon, and comments also upon the advisability of diverting the L. Funds of Ulcanwar Mauzah to first class roads & water supply in preference to fair weather tracks, which in that District are worthless in the rains. Govt. quite concur with the Commr. and commend the matter to the Collector's attention. Copy of the Collector and Mr. Stephenson's remarks on the importance of completing the provincial road to Heosur may be forwarded to the P. W. D. - The Subject of Municipal Administration with the Hon'ble Secy. before Govt. and they intend hereafter devote upon it here. But it would seem that the Municipality of Hanpal with an income of only Rs. 3 or 4 every half of which is raised by octroi duty, could with advantage be abolished Simultaneously has been extended to the Factory Operatives during the Year, the number of persons

Anantapur & Kurnool City Surveys which have been settled for the time by G.O. No 2065- of 20th April last is working out of place. The area of Waste Land has been increased by 21,075 acres, of which 13010 acres were abandoned by Ryots under G.O. No. 2510 of 26th June 1875. The Collector attributes the relinquishment of 20208 acres more to the increased rates imposed at the revision of assessment, but apparently without any sufficient grounds for the land in question is as the Collector observes, among the richest & most highly assessed in the Presidency. The subject of cotton cultivation in Anantapur will be separately dealt with by Govt. when the report for the current year is considered.

5) Nine decisions were passed during the year in suits against Government, and in each of them Govt. was successful. One suit was pending at 30th June last. Seventeen decisions were passed in 121 out of the 102 cases, and the work is reported to be fairly done. The number of offences ~~committed~~ dealt with by Magisterial has decreased from 3027 to 3295 and there has been a corresponding decrease in the number of offenders. 32 police patels were punished by fine of 7 by dismissal. A return ought to have been furnished showing the number of cases tried by village patels, as has been done in the reports from other districts in which any patels have powers under S. 15 Act VIII of 1869.

the District Jail were, it is satisfactory to find, frequent both on the part of the District Chaprs. & other 1st Class Chaprs.

A/ One meeting only of the Dist. L.F. Committee was held during the year. L.F. receipts were Rs. 15,55,511, & including an opening credit balance of Rs. 30,799, Rs. 2,46,310 & while including expenditure amounted to Rs. 1,55,221, leaving a closing balance of Rs. 91,088. The Comm.r adverts to the importance of completing the construction of the road from Padap to Kon, and comments also upon the advisability of devoting the L. Funds of Khanvar mainly to first class roads & water supply in preference to fair weather tracks, which in that district are wholly useless in the rains. Govt. quite concur with the Comm.r and commend the matter to the Collector's attention. Copy of the Director of Sanitation's remarks on the importance of completing the provincial road to Peshwar may be forwarded to the P. W. D. - The duty test of Municipal administration with the Standard before Govt. and they intend shortly before deciding upon it here. but it would seem that the Municipality of Hangal with an income of only Rs. 3,62 each year half of which is raised by octroi & which must with advantage be abo-

shed Vaccination has been extended to a satisfactory extent during [illegible]

Chingleput & North Arcot Districts which has been settled for the time by G.O. No 2065- of 20th April last is now out of place. The area of waste land has been increased by 31,075 acres, of which 13010 acres were abandoned by ryots under G.O. No 2010 of 26th June 1875. The Collector thinks the relinquishment of 1218 acres more to be increased the assessed at the revision of assessment, but apparently without sufficient grounds, for the land in question is as the Commissioner observes, among the richest & most highly assessed in the Presidency. The subject of cotton cultivation in Chingleput will be separately dealt with by Govt. when the report for the current season is considered.

5) Three decisions were passed during the year in suits against Government, and in each of them Govt. were successful. One suit was pending at the close of the year. Encroachment cases were tried in 121 out of the 162 cases, and the work is reported to be fairly done. The number of offences ~~committed~~ dealt with in each taluk is reported to have increased from 302 to 325 & there has been a corresponding increase in the number of offenders. 2 police patrols were furnished by the 07 by the Collector. A return is stated to have been furnished showing the number of cases tried by police patrols, as has been done in the reports from other districts in which such patrols have been employed under S. 15 Act III of 1867. [illegible]

the District fair were, it is satisfactory to find, fully equal to the best of the District Masters of the 1st Class Masters.

6/ One meeting only of the West L.F. Committee was held during the year. L.F. receipts were Rs. 15,55,511, or including an opening credit balance of Rs. 90,799, Rs. 24,06,310 in all. Expenditure amounted to Rs. 1,55,221, leaving a closing balance of Rs. 51,089. The Commr. adverts to the importance of completing the construction of the Sirsi-Kumta road, and commends also upon the advisability of diverting the L. funds of Uttarkanara mainly to first class roads & water supply in preference to fair weather tracks, which in that district are often useless in the rains. Govt. quite concur with the Commr: and commend the matter to the Collector's attention. Copy of the Director of Stephenson's remarks on the importance of completing the provincial road to the coast may be forwarded to the P. W. D. - The duty of municipal administration will be shortly before Govt and they will then have before them a scheme for the municipality of Karwar with an income of only Rs. 3[illegible] a year, half of which is raised by [illegible] rate, but with advantage the above [illegible] has been extended [illegible] Satisfactory extent during [illegible]

ending March from ₹ 503 to 13,445.
Schools were inspected by the
Asstt.

7/ Mr Muir has submitted a very
creditable Kannada report. Mr Muir should devote to field & subsequent examination
to his districts after having
a firm grasp of them for less
useful travelling is avoided. His remarks copy of the
marks contained in his para 33
concerning the importance of appointing
male teachers to girls' schools
should be sent to the Educational
Dt. for consideration.

Mr Wiltshire has done a good
year's work, and has attended
carefully with care & diligence to
duties. He should not have
stated in his para 14 any letters except
such as relate to the districts immediately
under him. His remarks re. Mr
Purdy are inadvisable after his Wiltshire's
adverse conclusions as to the results of the
vision assessment in Dharwar.

As remarked by the Commr Mr
Purdy's Exam. of Saleka Accounts
appears to have been perfunctory.
It is not understood how the Collector
Commr can practise this officer for his share
in the destruction of useless records,
when there work is ten years in arrears in
the Haveri Saleka. The amount of village
inspection performed by Mr Purdy was
satisfactory.

The special thanks of Govt are due to
the district officers of Dharwar for the
Saleka exam. shown by them during the

Mr Purdy should not have allowed
Wiltshire to enter in his own
diary the results of village inspection
in his own districts.

Purdy

Administration Reports.

No. 4342

REVENUE DEPARTMENT.

Bombay Castle, 18 August 1880.

Letter from the Commissioner, S. D., No. 1626, dated 27th July 1880—Forwarding, with his remarks, the Administration Reports of the Collector of Dhárwár and his Assistants and the District Deputy Collector for 1879-80.

RESOLUTION.—There was one change during the year in the staff of officers at the Collector's disposal, Mr. Charles, First Assistant Collector, having proceeded on furlough in November last, and being succeeded by Mr. Muir.

2. The season was a good one, though the rainfall was not above the average. In para. 3 of his forwarding letter, the Commissioner gives an interesting summary of the signs of recovery from previous distress which the district exhibits. The Collector should take immediate measures to locate the rain-gauges throughout the district in situations better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent. in the numbers of the rural population. The registration of vital statistics in Dhárwár, on which strong animadversions were passed last year, has been much improved by careful attention. Public health has been good, but the growing popularity of the charitable dispensaries is evinced by increased attendance, the number of out-patients having risen from 17,536 in 1878-79 to 20,077 in the year under review. The Collector should add a column to the table at his paragraph 6 showing the totals for the whole district. There is a slight increase in the number of vaccinations, both of primary and secondary operations. Agricultural stock has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen and unskilled labour fallen. Prices of food grains have greatly declined, wheat from 4 to 8 sers per rupee, jowári from 14 to 20 sers, and dál from 5 to 12 sers. Cotton, however, shows a slight rise, *viz.*, from 2·3 to 1·9 sers per rupee. The price of cotton depending upon the rates ruling in the European markets is not directly affected by a large outturn in the district in which it is grown. Takávi advances amounting to Rs. 3,601 were granted for the purchase of seed. They were rendered necessary by the ravages caused by rats, and have been re-paid in full. Both the Collector and Commissioner comment on the peculiar value of them to the ryots in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or nearly double. Government fully approve the Collector's proposal, which is supported by the Commissioner, to affiliate the Yemnur fair to the adjoining Municipality of Navalgund.

3. Except in two villages, the delay in which is satisfactorily explained, the Jamábandi settlement was punctually completed in all tálukas. The settlement of Ron, Bankápur and Kod was effected by the Collector in person. Land revenue for collection has risen from Rs. 22,23,475 in 1878-79 to Rs. 23,29,379, Sayar revenue from Rs. 1,13,377 to Rs. 1,19,639 and Local Funds from Rs. 1,69,086 to Rs. 1,85,012. The increase of Rs. 1,05,904 in land revenue is primarily due to the introduction of revised rates of assessment in the Dhárwár, Hubli, Hangal, Kalghatgi and Kod Tálukas, which also accounts for the increase in Local Funds. Abkári revenue has increased by only Rs. 5,555, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,895, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,34,393, while an outstanding

standing been from 5052 to 13,445.
36 schools were inspected by the
Inspector.

7/ Mr Smith has submitted a very
interesting & tho'tful, somewhat peculiar
report. That he should devote to field
and village work an acquaintance
with his districts after having
seen his charge of them for less
than half months is much to his
credit. The remarks of the
Inspector contained in his para 33
concerning the importance of appointing
female teachers to girls' schools
should be sent to the Educational
Dept. for consideration.

Mr Wiltshire has done a good
year's work, and has attended
generally with care & diligence to
standing orders. He should not have
entered in his para 14 any letters except
such as relate to the districts immediately
under him. The Commr's pecu-
liarly animadversions upon Mr Wiltshire's
crude conclusions as to the results of his
revision assessment in Dharwar.

As remarked by the Commr Mr
Gunning's Jamabandi of Belgaum appears to have been perfunctory.
Govt do not understand how the Collector
& Commr can praise this officer for blunders
made in the destruction of useless records,
when their work is ten years in arrears in
their transfer Belgaum. The amount of village
inspection performed by Mr Gunning was
satisfactory.

The special thanks of Govt are due to
the district officers of Dharwar for the

Administration Reports.

No. 4342

REVENUE DEPARTMENT.

Bombay Castle, 18 August 1880.

Letter from the Commissioner, S. D., No. 1628, dated 27th July 1880—Forwarding, with his remarks, the Administration Reports of the Collector of Dhárwár and his Assistants and the District Deputy Collector for 1879-80.

RESOLUTION.—There was one change during the year in the staff of officers at the Collector's disposal, Mr. Charles, First Assistant Collector, having proceeded on furlough in November last, and being succeeded by Mr. Muir.

2. The season was a good one, though the rainfall was not above the average. In para. 3 of his forwarding letter, the Commissioner gives an interesting summary of the signs of recovery from previous distress which the district exhibits. The Collector should take immediate measures to locate the rain-gauges throughout the district in situations better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent. in the numbers of the rural population. The registration of vital statistics in Dhárwár, on which strong animadversions were passed last year, has been ~~much~~ improved by careful attention. Public health has been good, but the growing popularity of the charitable dispensaries is evinced by increased attendance, the number of out-patients having risen from 17,536 in 1878-79 to 20,077 in the year under review. The Collector should add a column to the table at his paragraph 6 showing the totals for the whole district. There is a slight increase in the number of vaccinations, both of primary and secondary operations. Agricultural stock has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen and unskilled labour fallen. Prices of food grains have greatly declined, wheat from 4 to 8 sers per rupee, jowári from 14 to 20 sers, and dál from 5 to 12 sers. Cotton, however, shows a slight rise, *viz.*, from 2·3 to 1·9 sers per rupee. The price of cotton depending upon the rates ruling in the European markets is not directly affected by a large outturn in the district in which it is grown. Takávi advances amounting to Rs. 3,601 were granted for the purchase of seed. They were rendered necessary by the ravages caused by rats, and have been re-paid in full. Both the Collector and Commissioner comment on the peculiar value of ~~them~~ to the ryots in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or nearly double. Government fully approve the Collector's proposal, which is supported by the Commissioner, to affiliate the Yemnur fair to the adjoining Municipality of Navalgund.

3. Except in two villages, the delay in which is satisfactorily explained, the Jamábandi settlement was punctually completed in all tálukas. The settlement of Ron, Bankápur and Kod was effected by the Collector in person. Land revenue for collection has risen from Rs. 22,23,475 in 1878-79 to Rs. 23,29,379, Sayar revenue from Rs. 1,13,377 to Rs. 1,19,639 and Local Funds from Rs. 1,69,086 to Rs. 1,85,012. The increase of Rs. 1,05,904 in land revenue is primarily due to the introduction of revised rates of assessment in the Dhárwár, Hubli, Hangal, Kalgbatgi and Kod Tálukas, which also accounts for the increase in Local Funds. Abkári revenue has increased by only Rs. 5,555, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,395, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,34,393, while an outstanding

attending them from 5033 to 12,695.
36 Schools were inspected by the Educational.

7/ Mr Munro has submitted a very interesting, though somewhat partial report that he should know to take and participate an acquaintance with his districts after having been in charge of them for less than fifteen months is much to his credit. His remarks copy of the remarks contained in his para 33 Concerning the importance of appointing female teachers to Girls' Schools should be sent to the Educational Dept. for consideration.

Mr Wiltshire has done a good year's work, and has attended generally with care & diligence to standing orders. He should not have entered in his para 14 any figures except such as relate to the districts immediately under him. The Comm.r has properly animadverted upon Mr Wiltshire's rude conclusions as to the results of the revision assessment in Dharwar.

As remarked by the Comm.r Mr Pandit's Examn.n of Taluka Accounts appears to have been perfunctory. We do not understand how the Collector & Comm.r can praise this Officer for broken made in the destruction of useless records, when this work is ten years in arrears in the Haveli Taluka. The amount of village inspection performed by Mr Pandit was satisfactory.

The Special Thanks of Govt are due to the district officers of Dharwar for the

↑ he should not have shown hesitation to enter in his own pers. the defects of village inspection in his Munir's districts

↑ ... the determination of the rate, to the reversion of ... of the 1912 crop of 1873/74 must be attributed. Mamlatdars, Circles Inspectors & village Patwaris deserving

No. 4342

REVENUE DEPARTMENT.

Bombay Castle, 18 August 1880.

Letter from the Commissioner, S. D., No. 1626, dated 27th July 1880—Forwarding, with his remarks, the Administration Reports of the Collector of Dhárwár and his Assistants and the District Deputy Collector for 1879-80.

RESOLUTION.—There was one change during the year in the staff of officers at the Collector's disposal, Mr. Charles, First Assistant Collector, having proceeded on furlough in November last, and being succeeded by Mr. Muir.

2. The season was a good one, though the rainfall was not above the average. In para. 3 of his forwarding letter, the Commissioner gives an interesting summary of the signs of recovery from previous distress which the district exhibits. The Collector should take immediate measures to locate the rain-gauges throughout the district in situations better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent. in the numbers of the rural population. The registration of vital statistics in Dhárwár, on which strong animadversions were passed last year, has been ~~much~~ improved by careful attention. Public health has been good, but the growing popularity of the charitable dispensaries is evinced by increased attendance, the number of out-patients having risen from 17,536 in 1878-79 to 20,077 in the year under review. The Collector should add a column to the table at his paragraph 6 showing the totals for the whole district. There is a slight increase in the number of vaccinations, both of primary and secondary operations. Agricultural stock has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen and unskilled labour fallen. Prices of food grains have greatly declined, wheat from 4 to 8 sers per rupee, jowári from 14 to 20 sers, and dál from 5 to 12 sers. Cotton, however, shows a slight rise, *viz.*, from 2·3 to 1·9 sers per rupee. The price of cotton depending upon the rates ruling in the European markets is not directly affected by a large outturn in the district in which it is grown. Takávi advances amounting to Rs. 3,601 were granted for the purchase of seed. They were rendered necessary by the ravages caused by rats, and have been re-paid in full. Both the Collector and Commissioner comment on the peculiar value of ~~them~~ to the ryots in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or nearly double. Government fully approve the Collector's proposal, which is supported by the Commissioner, to affiliate the Yemnur fair to the adjoining Municipality of Navalgund.

3. Except in two villages, the delay in which is satisfactorily explained, the Jamábandi settlement was punctually completed in all tálukas. The settlement of Ron, Bankápur and Kod was effected by the Collector in person. Land revenue for collection has risen from Rs. 22,23,475 in 1878-79 to Rs. 23,29,379, Sayar revenue from Rs. 1,13,377 to Rs. 1,19,639 and Local Funds from Rs. 1,69,086 to Rs 1,85,012 The increase of Rs. 1,05,904 in land revenue is primarily due to the introduction of revised rates of assessment in the Dhárwár Hubli, Hangal, Kalghatgi and Kod Tálukas, which also accounts for the increase in Local Funds. Abkári revenue has increased by only Rs. 5,555, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,395, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,34,393, while an outstanding

balance of Rs. 3,329, of which Rs. 3,105 are on account of land revenue, wa anticipated at the close of the year. Collections of arrears on account of previou years have been but small, amounting to no more than Rs. 8,321, which leave Rs. 23,522 still outstanding. The Collector is strongly of opinion that the latter sum should be written off the accounts as irrecoverable, a subject however, concerning which the Commissioner reserves his opinion pending the receipt of detailed reports which have been called for by him. The amount of pressure required for the collection of the revenue was not great, as compared with the preceding year, for though 8,570 notices were issued as against 10,992, distrain was resorted to in only 84 cases, as compared with 480 in 1878-79. There has been a falling off in the amount realized from Provincial Tolls, a slight increase under the head of Local Fund Tolls. The decrease, which is said to be due to a combination among the farmers should be dealt with in one of the mode suggested by the Commissioner. Mr. Crawford is undoubtedly correct in considering that the sale of the Tungbhadra ferry farm should be held on the Dhárwár side and Government trust that measures will be adopted for effecting it. Forest receipts show an increase from Rs. 24,790 to Rs. 38,890, while expenditure has risen from Rs. 20,274 to Rs. 30,017. This subject will be fully discussed when Government consider the annual Administration Reports from the Conservators of Forests. Free grants of timber have been made in four cases only. Stamp revenue has fallen from Rs. 79,269 to Rs. 66,848 under the head of Court Fees and from Rs. 55,422 to Rs. 44,981 under the head of General Stamps. Less litigation and fewer dealings between the Sowkárs and ryots are said to account for this. The Collector has tabulated in his para. 26 the results under the different classes of License-tax assessment, but as pointed out by the Commissioner has failed to contrast the figures for the year under review with those of the preceding year. It appears that Rs. 1,23,140 were originally imposed as License-tax, that there were 1,064 appeals resulting in the reduction of the amount to Rs. 1,17,838, and that all but Rs. 141 was collected. These results are not unsatisfactory and evince increased care and attention on the part of the local officers. There are four minors' estates under the Collector's charge; that belonging to Lákshmanrao Mahádev, the minor Jágirdár of Hebli, appears to be much involved, but as the owner is only seven years of age, it may be hoped that it will have attained a satisfactory financial position long before he has arrived at majority. The result of the management of the estate belonging to Mr Bháskar Yeshwant Jatar has been most satisfactory. The balance at the credit of the estate has been raised from Rs. 4-8-2, the sum at which it stood in 1870 when the estate was attached, to Rs. 14,835, while Mr. Bháskar himself has received an excellent education and has taken his degree as B A. at the University. A fair amount of Watan Registration has been performed during the year, though there is still room for improvement under this head.

4 The Collector has moved actively about his charge and performed a large amount of village inspection. His inspection of boundary marks is particularly commendable. The destruction of useless records has been on the whole satisfactory The revised rates of settlement were introduced during the year into 110 villages of the tálukás noted in the margin. As pointed out by the Commissioner, Mr. Elphinston's disquisition on the subject of the Dhárwár and Hubli city surveys, which has been settled for the time by Government Resolution No. 2065 of 20th April last, is out of place. The area of waste land has been increased by 31,075 acres, of which 13,010 acres were abandoned by pauper ryots under Government Resolution No. 3310 of 24th June 1879. The Collector attributes the relinquishment of 20,218 acres more to the increased rates imposed at the revision of assessment, but apparently without any sufficient grounds, for the land in question is, as the Commissioner observes, among the richest and most lightly assessed in the Presidency. The subject of cotton cultivation in Dhárwár will be separately dealt with by Government, when the report for the entire Presidency is considered.

5. Four decisions were passed during the year in suits in which Government were concerned and in each of them Government was successful. One suit

was pending on 30th June last. Mámlatdárs' decisions were revised in 142 out of 162 cases, and the work is reported to be fairly done. The number of offences dealt with magisterially has decreased from 3,627 to 3,399, and there has been a corresponding decrease in the number of offenders. 32 Police Pátels were punished by fine and 7 by dismissal. A return ought to have been furnished showing the number of cases tried by Police Pátels, as has been done in the reports from other districts in which any Pátels have powers under Section 15, Act VIII. of 1867. Visits to the district jail were, it is satisfactory to find, frequent, both on the part of the District Magistrate and of other 1st Class Magistrates.

6. One meeting only of the District Local Fund Committee was held during the year. Local Fund receipts were Rs. 1,55,511, or including an opening credit balance of Rs. 90,799, Rs. 2,46,310, while expenditure amounted to Rs. 1,55,221, leaving a closing balance of 91,089. The Commissioner adverts to the importance of completing the construction of the road from Gadag to Ron, and comments also upon the advisability of devoting the Local Funds of Dhárwár mainly to first class roads and water-supply in preference to fair-weather tracks, which in that district are wholly useless in the rains. Government quite concur with the Commissioner, and ~~commend the matter to the~~ Collector's attention. Copy of Mr. Elphinston's remarks on the importance of completing the provincial road to Hesrur may be forwarded to the Public Works Department. The subject of Municipal administration will be shortly before Government, and they will not therefore dwell upon it here. But it would seem that the Municipality of Hargal, with an income of only Rs. 382, nearly half of which is raised by octroi duty, might with advantage be abolished. Education has been extended to a satisfactory extent during the year, the number of primary schools having increased from 254 to 296, and of the scholars attending them from 9,639 to 13,445. 36 schools were inspected by the Collector.

7. Mr Muir has submitted a very interesting, though somewhat prolix report. That he should show so full and intelligent an acquaintance with his districts after having been in charge of them for less than eight months is much to his credit. He should not have allowed Mr. Wiltshire to enter in his own report the details of village inspection performed in Mr. Muir's districts. Copy of the remarks contained in his paragraph 33 concerning the importance of appointing female teachers to girls' schools should be sent to the Educational Department for consideration.

8. Mr. Wiltshire has done a good year's work, and has attended generally with care and diligence to standing orders. He should not have entered in his paragraph 14 any figures except such as relate to the districts immediately under him. The Commissioner properly animadverts upon Mr. Wiltshire's crude conclusions as to the results of the revision assessment in Dhárwár.

9. As remarked by the Commissioner, Mr. Anding's examination of táluka accounts appears to have been perfunctory. The amount of village inspection performed by Mr. Anding was satisfactory.

10. The special thanks of Government are due to the district officers of Dhárwár for the laudable energy shown by them during the rains of 1879 in furthering the extermination of the rats, to the ravages of which the loss of the rabi crop of 1878-79 must be attributed. Messrs. Elphinston, Charles, Wiltshire, and Walton seem particularly deserving of commendation.

W. C. Muir

5. Four decisions were passed during the year in suits in which Government were concerned, and in each of them Government was successful One sui

was pending on 30th June last. Mámlatdárs' decisions were revised in 142 out of 162 cases, and the work is reported to be fairly done. The number of offences dealt with magisterially has decreased from 3,627 to 3,399, and there has been a corresponding decrease in the number of offenders. 32 Police Pátels were punished by fine and 7 by dismissal. A return ought to have been furnished showing the number of cases tried by Police Pátels, as has been done in the reports from other districts in which any Pátels have powers under Section 15, Act VIII. of 1867. Visits to the district jail were, it is satisfactory to find, frequent, both on the part of the District Magistrate and of other 1st Class Magistrates

6. One meeting only of the District Local Fund Committee was held during the year. Local Fund receipts were Rs. 1,55,511, or including an opening credit balance of Rs. 90,799, Rs. 2,46,310, while expenditure amounted to Rs. 1,55,221, leaving a closing balance of 91,089. The Commissioner adverts to the importance of completing the construction of the road from Gadag to Ron, and comments also upon the advisability of devoting the Local Funds of Dhárwár mainly to first class roads and water-supply in preference to fair-weather tracks, which in that district are wholly useless in the rains. Government quite concur with the Commissioner, and ~~commend the matter to the Collector's attention.~~ Copy of Mr. Elphinston's remarks on the importance of completing the provincial road to Hasrur may be forwarded to the Public Works Department. The subject of Municipal administration will be shortly before Government, and they will not therefore dwell upon it here. But it would seem that the Municipality of Haugal, with an income of only Rs. 382, nearly half of which is raised by octroi duty, might with advantage be abolished. Education has been extended to a satisfactory extent during the year, the number of primary schools having increased from 254 to 296, and of the scholars attending them from 9,639 to 13,415. 36 schools were inspected by the Collector.

7. Mr. Muir has submitted a very interesting, though somewhat prolix report. That he should show so full and intelligent an acquaintance with his districts after having been in charge of them for less than eight months is much to his credit. He should not have allowed Mr. Wiltshire to enter in his own report the details of village inspection performed in Mr. Muir's districts. Copy of the remarks contained in his paragraph 33 concerning the importance of appointing female teachers to girls' schools should be sent to the Educational Department for consideration.

8. Mr. Wiltshire has done a good year's work, and has attended generally with care and diligence to standing orders. He should not have entered in his paragraph 14 any figures except such as relate to the districts immediately under him. The Commissioner properly animadverts upon Mr. Wiltshire's crude conclusions as to the results of the revision assessment in Dhárwár.

9 As remarked by the Commissioner, Mr. Anding's examination of táluka accounts appears to have been perfunctory The amount of village inspection performed by Mr. Anding was satisfactory.

10 The special thanks of Government are due to the district officers of Dhárwár for the laudable energy shown by them during the rains of 1879 in furthering the extermination of the rats, to the ravages of which the loss of the rabi crop of 1878-79 must be attributed. Messrs. Elphinston, Charles Wiltshire, and Walton seem particularly deserving of commendation.

Acting Secretary to Government.

No. 4242.

REVENUE DEPARTMENT.

Bombay Castle, 18th August 1880.

Letter from the Commissioner, S. D., No. 1626, dated 27th July 1880—Forwarding, with his remarks, the Administration Reports of the Collector of Dhárwár and his Assistants and the District Deputy Collector for 1879-80.

RESOLUTION.—There was one change during the year in the staff of officers at the Collector's disposal, Mr. Charles, First Assistant Collector, having proceeded on furlough in November last, and being succeeded by Mr. Muir.

2. The season was a good one, though the rainfall was not above the average. In para. 3 of his forwarding letter, the Commissioner gives an interesting summary of the signs of recovery from previous distress which the district exhibits. The Collector should take immediate measures to locate the rain-gauges throughout the district in situations better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent. in the numbers of the rural population. The registration of vital statistics in Dhárwár, on which strong animadversions were passed last year, has been improved by careful attention, but is still capable of much further improvement. Public health has been good, but the growing popularity of the charitable dispensaries is evinced by increased attendance, the number of out-patients having risen from 17,536 in 1878-79 to 20,077 in the year under review. The Collector should add a column to the table at his paragraph 6 showing the totals for the whole district. There is a slight increase in the number of vaccinations, both of primary and secondary operations. Agricultural stock has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen and unskilled labour fallen. Prices of food grains have greatly declined, wheat from 4 to 8 sers per rupee, jowári from 14 to 20 sers, and dál from 6 to 12 sers. Cotton, however, shows a slight rise, *viz.*, from 1·3 to 1·9 sers per rupee. The price of cotton depending upon the rates ruling in the European markets is not directly affected by a large outturn in the district in which it is grown. Takávi advances amounting to Rs. 3,601 were granted for the purchase of seed. They were rendered necessary by the ravages caused by rats, and have been re-paid in full. Both the Collector and Commissioner comment on the peculiar value of these advances to the raiyats in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or nearly double. Government fully approve the Collector's proposal, which is supported by the Commissioner, to affiliate the Yemnur Fair to the adjoining Municipality of Navalgund.

3. Except in two villages, the delay in which is satisfactorily explained, the Jamábandi settlement was punctually completed in all tálukas. The settlement of Ron, Bankápur and Kod was effected by the Collector in person. Land revenue for collection has risen from Rs. 22,23,475 in 1878-79 to Rs. 23,29,379, Sáyar revenue from Rs. 1,13,377 to Rs. 1,19,639 and Local Funds from Rs. 1,69,086 to Rs. 1,85,012. The increase of Rs. 1,05,904 in land revenue is primarily due to the introduction of revised rates of assessment in the Dhárwár Hubli, Hangal, Kalghatgi and Kod Tálukas, which also accounts for the increase in Local Funds. Abkári revenue has increased by only Rs. 5,553, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,395, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,34,393, while an outstanding balance of Rs. 3,320, of which Rs. 3,105 are on account of land revenue, was anticipated at the close of the year. Collections of arrears on account of previous years have been but small, amounting to no more than Rs. 8,321, which leaves

REVENUE DEPARTMENT.

Bombay Castle, 18th August 1880.

Letter from the Commissioner, S. D., No. 1626, dated 27th July 1880—Forwarding, with his remarks, the Administration Reports of the Collector of Dhárwár and his Assistants and the District Deputy Collector for 1879-80.

RESOLUTION.—There was one change during the year in the staff of officers at the Collector's disposal, Mr. Charles, First Assistant Collector, having proceeded on furlough in November last, and being succeeded by Mr. Muir.

2. The season was a good one, though the rainfall was not above the average. In para. 3 of his forwarding letter, the Commissioner gives an interesting summary of the signs of recovery from previous distress which the district exhibits. The Collector should take immediate measures to locate the rain-gauges throughout the district in situations better adapted for the purposes they are intended to fulfil than they appear to occupy at present. There has been an increase of rather more than 1 per cent. in the numbers of the rural population. The registration of vital statistics in Dhárwár, on which strong animadversions were passed last year, has been improved by careful attention, but is still capable of much further improvement. Public health has been good, but the growing popularity of the charitable dispensaries is evinced by increased attendance, the number of out-patients having risen from 17,536 in 1878-79 to 20,077 in the year under review. The Collector should add a column to the table at his paragraph 6 showing the totals for the whole district. There is a slight increase in the number of vaccinations, both of primary and secondary operations. Agricultural stock has increased under all heads. There has been a slight fluctuation in the prices of labour, skilled labour having risen and unskilled labour fallen. Prices of food grains have greatly declined, wheat from 4 to 8 sers per rupee, jowári from 14 to 20 sers, and dál from 5 to 12 sers. Cotton, however, shows a slight rise, *viz.*, from 2·3 to 1·9 sers per rupee. The price of cotton depending upon the rates ruling in the European markets is not directly affected by a large outturn in the district in which it is grown. Takávi advances amounting to Rs. 3,601 were granted for the purchase of seed. They were rendered necessary by the ravages caused by rats, and have been re-paid in full. Both the Collector and Commissioner comment on the peculiar value of these advances to the raiyats in the emergency under which they were granted. There has been a large increase in the numbers of people who attended the various fairs held in the district, the figures being 61,575 as against 35,000 in the previous year, or nearly double. Government fully approve the Collector's proposal, which is supported by the Commissioner, to affiliate the Yemnur Fair to the adjoining Municipality of Navalgund.

3. Except in two villages, the delay in which is satisfactorily explained, the Jamábandi settlement was punctually completed in all tálukas. The settlement of Ron, Bankápur and Kod was effected by the Collector in person. Land revenue for collection has risen from Rs. 22,23,475 in 1878-79 to Rs. 23,29,879, Sáyar revenue from Rs 1,13,377 to Rs. 1,19,639 and Local Funds from Rs. 1,69,086 to Rs. 1,85,012 The increase of Rs 1,05,904 in land revenue is primarily due to the introduction of revised rates of assessment in the Dhárwár, Hubli, Hangal, Kalghatgi and Kod Tálukas, which also accounts for the increase in Local Funds Abkári revenue has increased by only Rs. 5,555, but the Collector reports that the recent sale of farms for the ensuing year has resulted in an increase of Rs. 24,395, which can be attributed only to the generally improved condition of the people. Realizations of revenue show a total collection under all heads of Rs. 26,07,140 out of Rs. 26,34,393, while an outstanding balance of Rs. 3,320, of which Rs. 3,105 are on account of land revenue, was anticipated at the close of the year. Collections of arrears on account of previous years have been but small, amounting to no more than Rs. 8,321, which leaves

Rs. 23,522 still outstanding. The Collector is strongly of opinion that the latter sum should be written off the accounts as irrecoverable, a subject, however, concerning which the Commissioner reserves his opinion pending the receipt of detailed reports which have been called for by him. The amount of pressure required for the collection of the revenue was not great, as compared with the preceding year, for though 8,570 notices were issued as against 10,992, distraint was resorted to in only 34 cases, as compared with 480 in 1878-79. There has been a falling off in the amount realized from Provincial Tolls and a slight increase under the head of Local Fund Tolls. The decrease, which is said to be due to a combination among the farmers, should be dealt with in one of the modes suggested by the Commissioner. Mr. Crawford is undoubtedly correct in considering that the sale of the Tungbhadrá ferry farm should be held on the Dhárwár side, and Government trust that measures will be adopted for effecting it. Forest *receipts show an increase from Rs. 24,790 to Rs. 38,890, while expenditure* has risen from Rs. 20,274 to Rs. 30,017. This subject will be fully discussed when Government consider the annual Administration Reports from the Conservators of Forests. Free grants of timber have been made in four cases only. Government will be glad to receive a detailed report on the subject of the extension of the forest area, as suggested in para. 15 of the Commissioner's letter. Stamp revenue has fallen from Rs. 79,269 to Rs. 66,848 under the head of Court Fees, and from Rs. 55,422 to Rs. 44,981 under the head of General Stamps. Less litigation and fewer dealings between the Sowkára and raiyats are said to account for this. The Collector has tabulated in his para. 26 the results under the different classes of License-tax assessment, but as pointed out by the Commissioner has failed to contrast the figures for the year under review with those of the preceding year. It appears that Rs. 1,23,140 were originally imposed as License-tax, that there were 1,064 appeals resulting in the reduction of the amount to Rs 1,17,838, and that all but Rs. 141 was collected. These results are not unsatisfactory, and evince increased care and attention on the part of the local officers. There are four minors' estates under the Collector's charge; that *belonging to Lakshmanrao Mahádev, the minor Jághírdár of Hebli*, appears to be much involved, but as the owner is only seven years of age, it may be hoped that it will have attained a satisfactory financial position long before he has arrived at majority. The result of the management of the estate belonging to Mr. Bháskar Yeshwant Jatar has been most satisfactory. The balance at the credit of the estate has been raised from Rs. 4-8-2, the sum at which it stood in 1870 when the estate was attached, to Rs. 14,835, while Mr. Bháskar himself has received an excellent education and has taken his degree as B.A. at the University. A fair amount of vatán registration has been performed during the year, though there is still room for improvement under this head.

4 The Collector has moved actively about his charge and performed a large amount of village inspection. His inspection of boundary marks is particularly commendable. The destruction of useless records has been on the whole satisfactory. The revised rates of settlement were introduced during the year into 110 villages of the tálukás noted in the margin. As pointed out by the Commissioner, Mr. Elphinston's disquisition on the subject of the Dhárwár and Hubli city surveys, which has been settled for the time by Government Resolution No. 2065 of 20th April last, is out of place. The area of waste land has been increased by 31,075 acres, of which 13,010 acres were abandoned by pauper raiyats under Government Resolution No 3310 of 24th June 1879. The Collector attributes the relinquishment of 20 218 acres more to the increased rates imposed at the revision of assessment, but apparently without any sufficient grounds, for the land in question is, as the Commissioner observes, among the richest and most lightly assessed in the Presidency. The subject of cotton cultivation in Dhárwár will be separately dealt with by Government, when the report for the entire Presidency is considered

7. Mr. Muir has submitted a very interesting, though somewhat prolix report. That he should show so full and intelligent an acquaintance with his districts after having been in charge of them for less than eight months is much to his credit. He should not have allowed Mr. Wiltshire to enter in his own report the details of village inspection performed in Mr. Muir's districts. Copy of the remarks contained in his paragraph 33 concerning the importance of appointing female teachers to girls' schools should be sent to the Educational Department for consideration.

8 Mr. Wiltshire has done a good year's work, and has attended generally with care and diligence to standing orders He should not have entered in his paragraph 14 any figures except such as relate to the districts immediately under him The Commissioner properly animadverts upon Mr. Wiltshire's crude conclusions as to the results of the revision assessment in Dhárwár.

9 As remarked by the Commissioner, Mr. Anding's examination of táluka accounts appears to have been perfunctory The amount of village inspection performed by Mr Anding was satisfactory.

10 The special thanks of Government are due to the district officers of Dhárwár for the laudable energy shown by them during the rains of 1879 in furthering the extermination of the rats, to the ravages of which the loss of the rabi crop of 1878-79 must be attributed Messrs Elphinston, Charles, Wiltshire, and Walton seem particularly deserving of commendation

In Acting Secretary to Government

No 4343 of 1880
copy forwarded to the Govt in Lind

Rs. 23,522 still outstanding. The Collector is strongly of opinion that the latter sum should be written off the accounts as irrecoverable, a subject, however, concerning which the Commissioner reserves his opinion pending the receipt of detailed reports which have been called for by him. The amount of pressure required for the collection of the revenue was not great, as compared with the preceding year, for though 8,570 notices were issued as against 10,992, distraint was resorted to in only 84 cases, as compared with 480 in 1878-79. There has been a falling off in the amount realized from Provincial Tolls and a slight increase under the head of Local Fund Tolls. The decrease, which is said to be due to a combination among the farmers, should be dealt with in one of the modes suggested by the Commissioner. Mr. Crawford is undoubtedly correct in considering that the sale of the Tungbhadrá ferry farm should be held on the Dhárwár side, and Government trust that measures will be adopted for effecting it. Forest receipts show an increase from Rs. 24,790 to Rs. 33,890, while expenditure has risen from Rs. 20,274 to Rs. 30,017. This subject will be fully discussed when Government consider the annual Administration Reports from the Conservators of Forests. Free grants of timber have been made in four cases only. Government will be glad to receive a detailed report on the subject of the extension of the forest area, as suggested in para. 15 of the Commissioner's letter. Stamp revenue has fallen from Rs. 79,269 to Rs. 66,848 under the head of Court Fees, and from Rs. 55,422 to Rs. 44,981 under the head of General Stamps. Less litigation and fewer dealings between the Sowkárs and raiyats are said to account for this. The Collector has tabulated in his para. 26 the results under the different classes of License-tax assessment, but as pointed out by the Commissioner has failed to contrast the figures for the year under review with those of the preceding year. It appears that Rs. 1,23,140 were originally imposed as License-tax, that there were 1,064 appeals resulting in the reduction of the amount to Rs. 1,17,838, and that all but Rs. 141 was collected. These results are not unsatisfactory, and evince increased care and attention on the part of the local officers. There are four minors' estates under the Collector's charge; that belonging to Lakshmanrao Mahádev, the minor Jághirdár of Hebli, appears to be much involved, but as the owner is only seven years of age, it may be hoped that it will have attained a satisfactory financial position long before he has arrived at majority. The result of the management of the estate belonging to Mr. Bháskar Yeshwant Jatar has been most satisfactory. The balance at the credit of the estate has been raised from Rs. 4-8-2, the sum at which it stood in 1870 when the estate was attached, to Rs. 14,835, while Mr. Bháskar himself has received an excellent education and has taken his degree as B.A. at the University. A fair amount of vatan registration has been performed during the year, though there is still room for improvement under this head.

4. The Collector has moved actively about his charge and performed a large amount of village inspection. His inspection of boundary marks is particularly commendable. The destruction of useless records has been on the whole satisfactory. The revised rates of settlement were introduced during the year into 110 villages of the tálukás noted in the margin. As pointed out by the Commissioner, Mr. Elphinston's disquisition on the subject of the Dhárwár and Hubli city surveys, which has been settled for the time by Government Resolution No. 2065 of 20th April last, is out of place. The area of waste land has been increased by 31,075 acres, of which 13,010 acres were abandoned by pauper raiyats under Government Resolution No. 3310 of 24th June 1879. The Collector attributes the relinquishment of 20,218 acres more to the increased rates imposed at the revision of assessment but apparently without any sufficient grounds, for the land in question is, as the Commissioner observes, among the richest and most highly assessed in the Presidency. The subject of cotton cultivation in Dhárwár will be separately dealt with by Government, when the report for the entire Presidency is considered.

Tálukás	Villages.
Dharwár	1
Hubli	11
Gadag	13
Navalgund	23
Ron	2
Kalghatgi	57
	110

5. Four decisions were passed during the year in suits in which Government were concerned, and in each of them Government were successful. One suit was pending on 30th June last. Mámlatdárs' decisions were revised in 142 out

of 162 cases, and the work is reported to be fairly done. The number of offences dealt with magisterially has decreased from 3,627 to 3,399, and there has been a corresponding decrease in the number of offenders. 32 Police Patels were punished by fine and 7 by dismissal. A return ought to have been furnished showing the number of cases tried by Police Patels, as has been done in the reports from other districts in which any Patels have powers under Section 15, Act VIII. of 1867. Visits to the district jail were, it is satisfactory to find, frequent, both on the part of the District Magistrate and of other 1st Class Magistrates.

6. One meeting only of the District Local Fund Committee was held during the year. Local Fund receipts were Rs. 1,55,511, or, including an opening credit balance of Rs. 90,799, Rs. 2,46,310, while expenditure amounted to Rs. 1,55,221, leaving a closing balance of 91,089. The Commissioner adverts to the importance of completing the construction of the road from Gadag to Ron, and comments also upon the advisability of devoting the Local Funds of Dhárwár mainly to first-class roads and water-supply in preference to fair-weather tracks, which in that district are wholly useless in the rains. Government quite concur with the Commissioner, and he should revise the Local Fund Budget accordingly. Copy of Mr. Elphinston's remarks on the importance of completing the provincial road to Hesrur may be forwarded to the Public Works Department. The subject of Municipal administration will be shortly before Government, and they will not therefore dwell upon it here. But it would seem that the Municipality of Hangal, with an income of only Rs. 382, nearly half of which is raised by octroi duty, might with advantage be abolished. Education has been extended to a satisfactory extent during the year, the number of primary schools having increased from 254 to 296, and of the scholars attending them from 9,639 to 13,445. 36 schools were inspected by the Collector

7 Mr. Muir has submitted a very interesting, though somewhat prolix report. That he should show so full and intelligent an acquaintance with his districts after having been in charge of them for less than eight months is much to his credit. He should not have allowed Mr. Wiltshire to enter in his own report the details of village inspection performed in Mr Muir's districts. Copy of the remarks contained in his paragraph 33 concerning the importance of appointing female teachers to girls' schools should be sent to the Educational Department for consideration.

8 Mr. Wiltshire has done a good year's work, and has attended generally with care and diligence to standing orders. He should not have entered in his paragraph 14 any figures except such as relate to the districts immediately under him The Commissioner properly animadverts upon Mr Wiltshire's crude conclusions as to the results of the revision assessment in Dhárwár

9 As remarked by the Commissioner, Mr Anding's examination of táluka accounts appears to have been perfunctory The amount of village inspection performed by Mr Anding was satisfactory

10 The special thanks of Government are due to the district officers of Dharwar for the laudable energy shown by them during the rains of 1879 in furtherance the extermination of the rats, to the ravages of which the loss of the rabi crop of 1878-79 must be attributed Messrs Elphinston, Charles, Wiltshire and Walton seem particularly deserving of commendation
